

How to give a pitch

Scientific communication==Storytelling

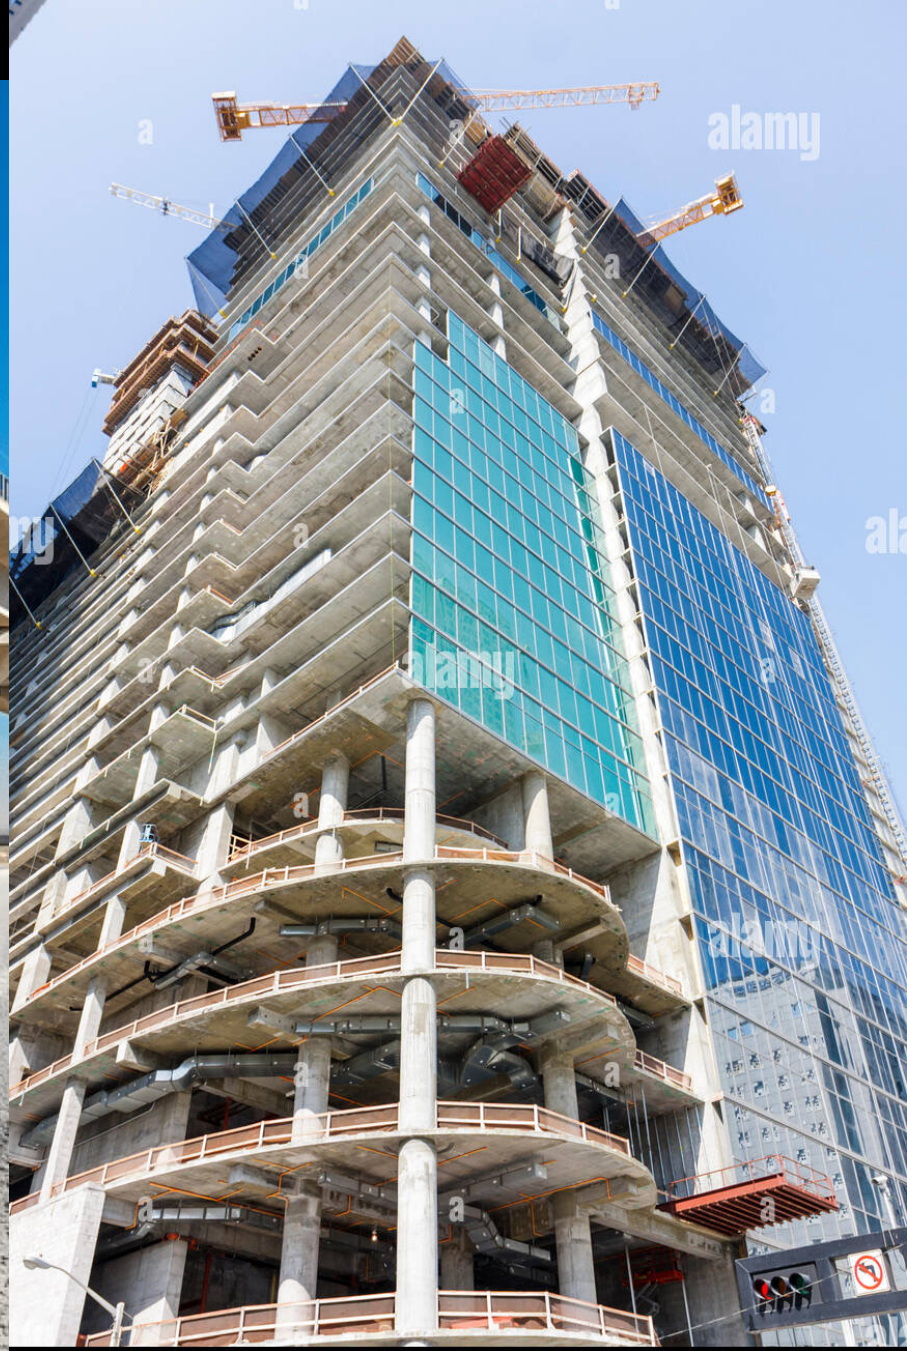

1. Broad & relatable scientific/engineering problem
2. Scientific question or purpose of the study
3. Major challenge(s) to solving the problem
4. What is your approach/innovation.
5. Major discovery, finding, or demonstration
6. So what? What is the impact?

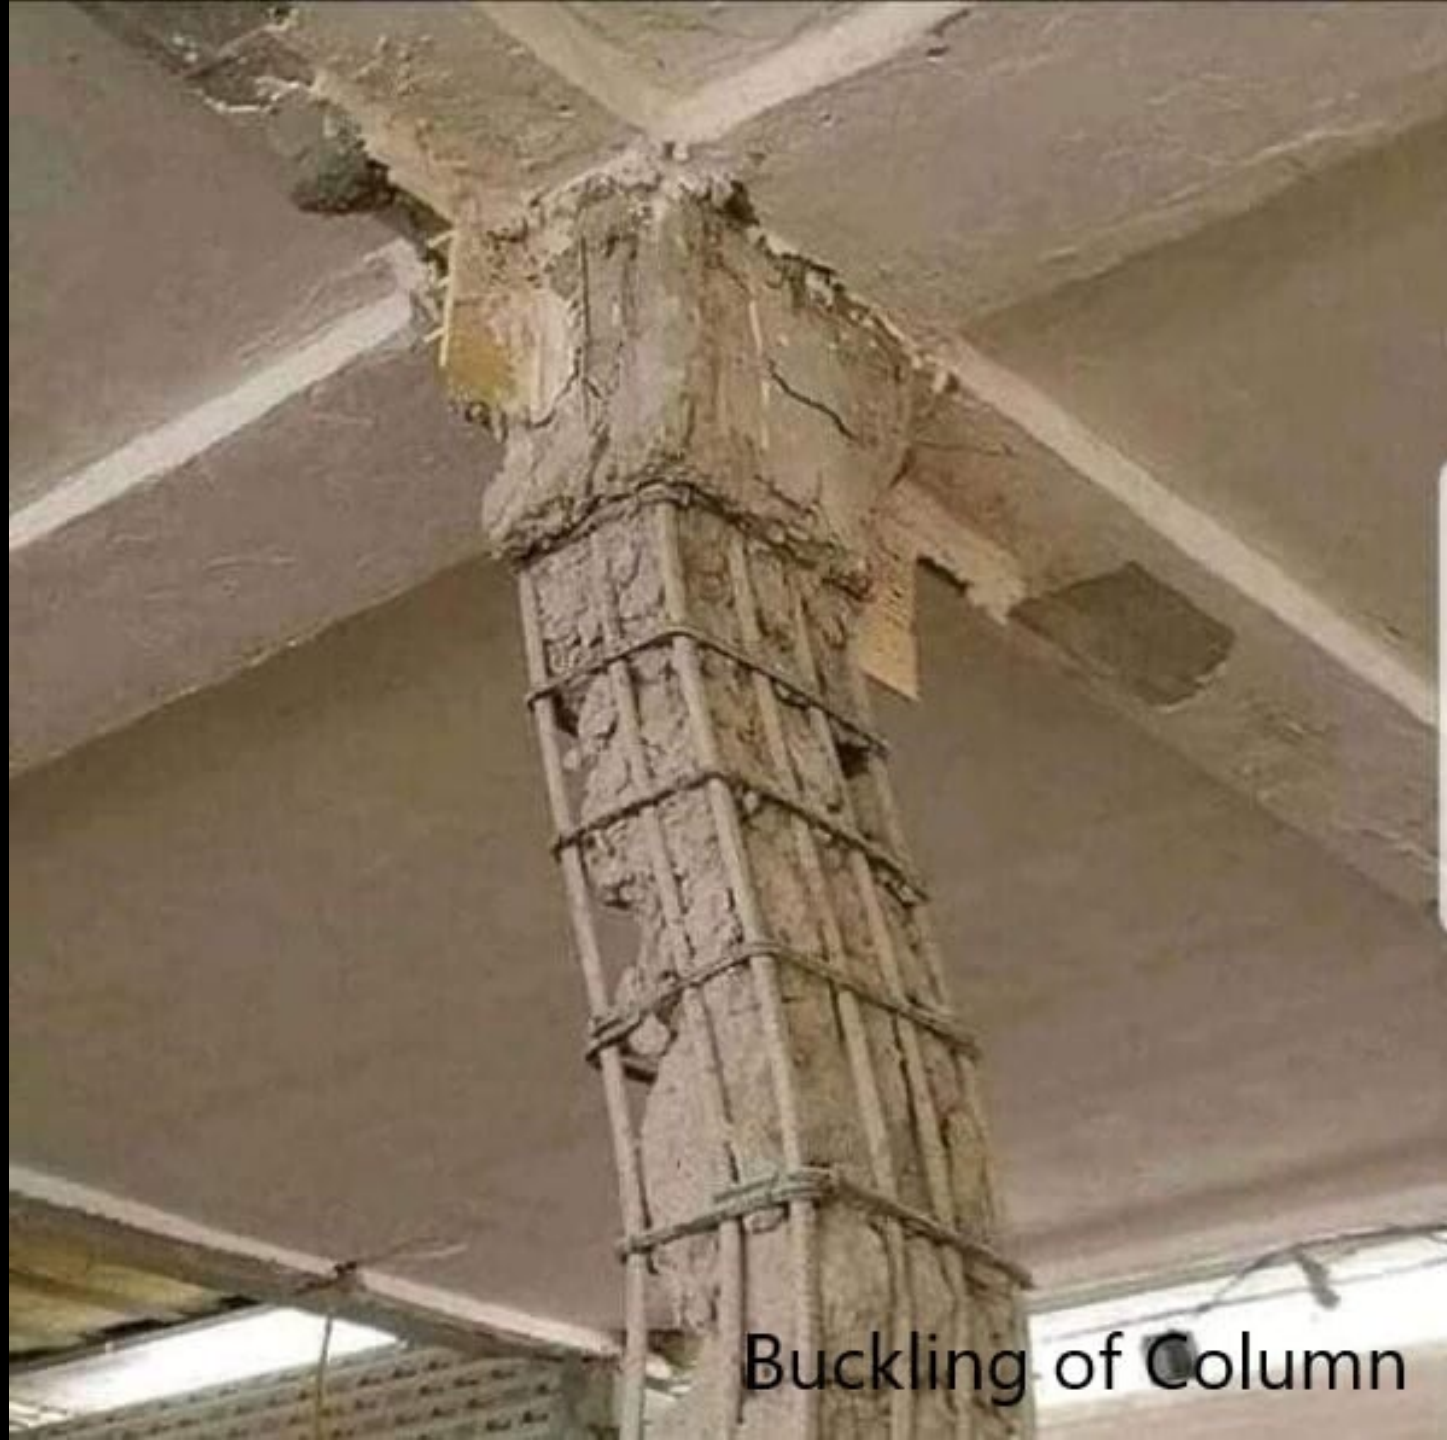

RISE framework

- | | |
|---|--|
| 1. Broad & relatable scientific/engineering problem | Relevance |
| 2. Scientific question or purpose of the study | |
| 3. Major challenge(s) to solving the problem | Issue |
| 4. What is your approach/innovation. | Solution |
| 5. Major discovery, finding, or demonstration | Experiments, evidence,
expertise, and/or
excitement |
| 6. So what? What is the impact? | |

Visual aids

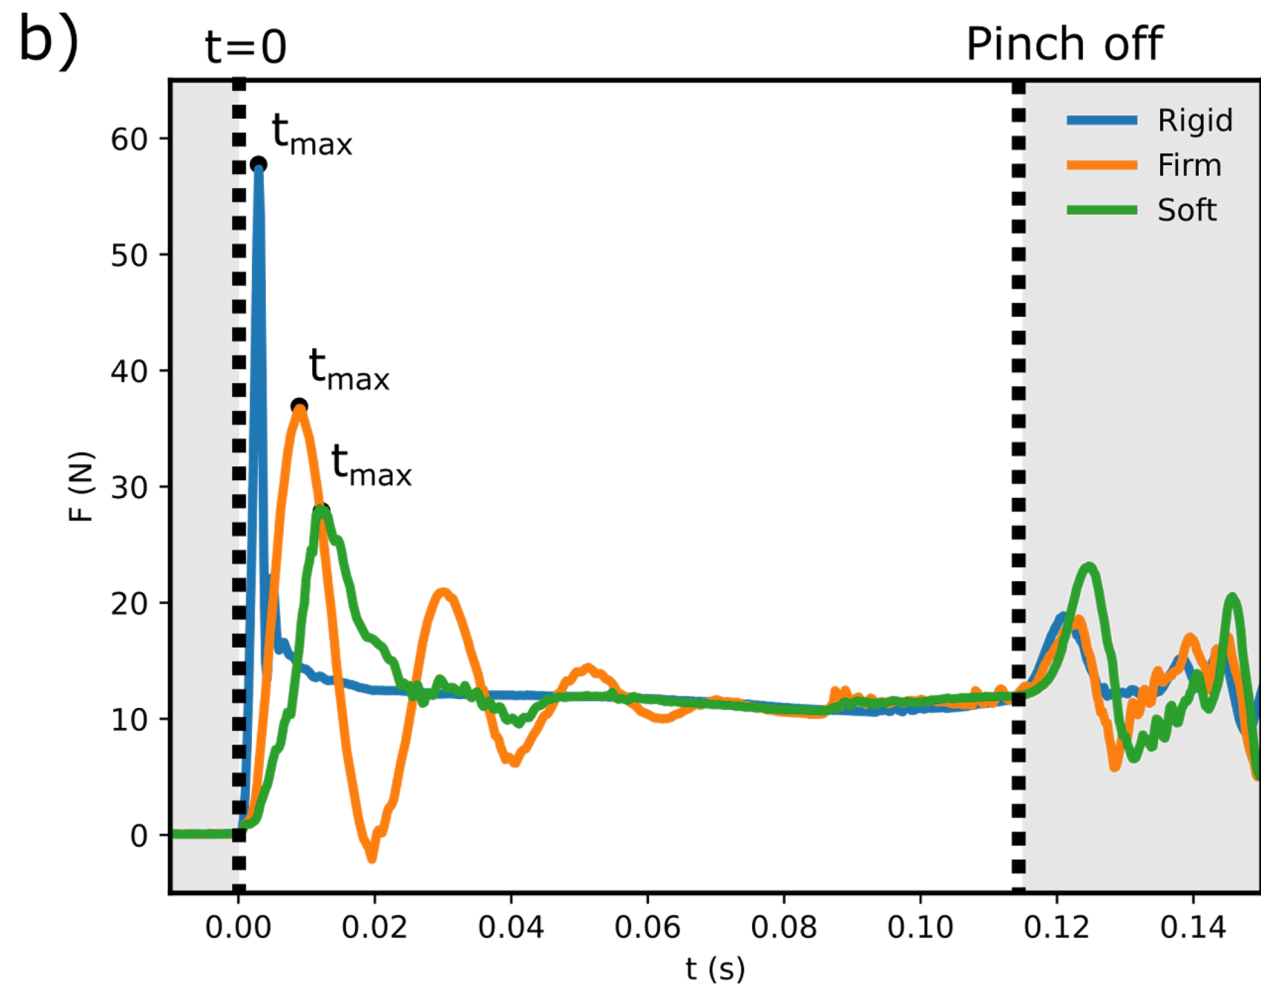

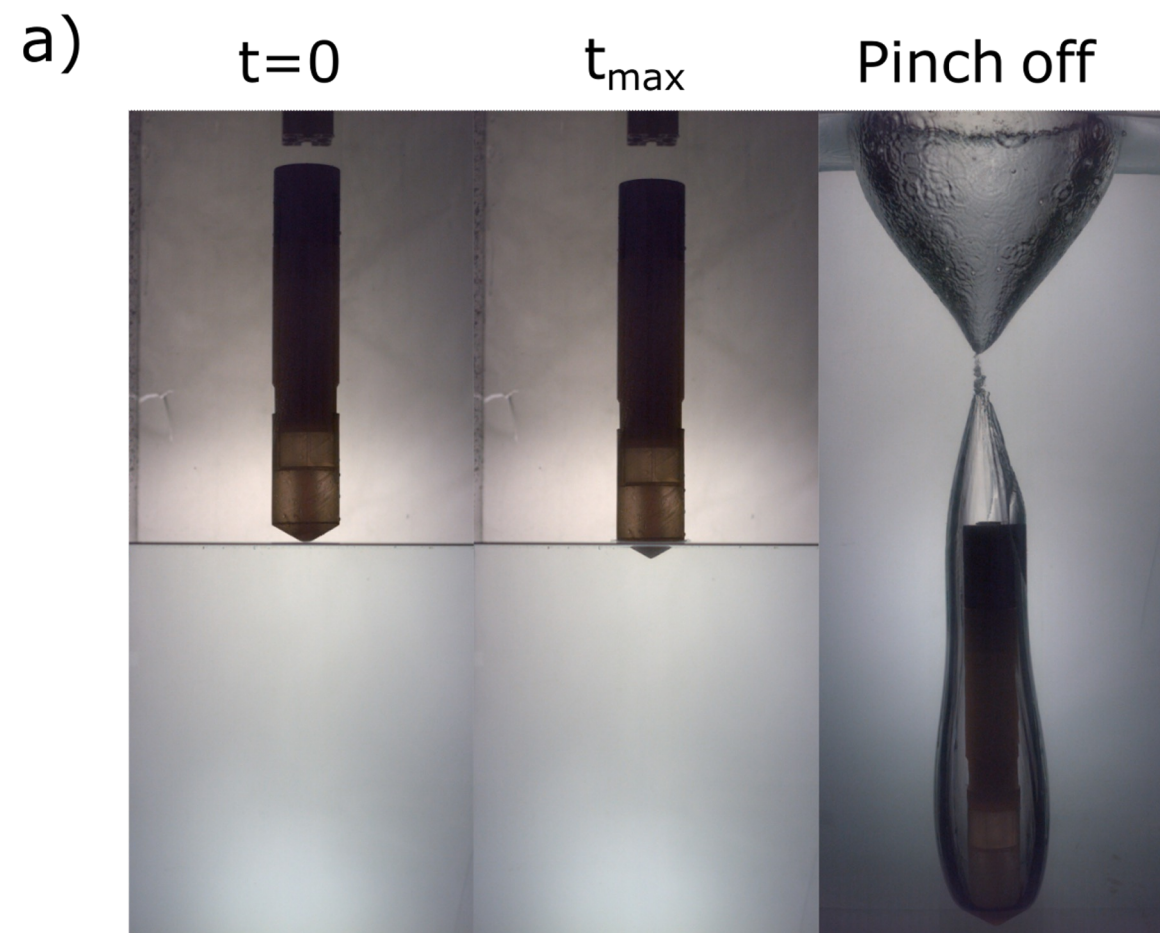

- Where do you want the audience's attention to be? You or the slides?
- Key message should be inferable within 3 seconds.
- One idea per slide.
- Every item on slide should have a purpose.
- Should be readable from the back of the room.

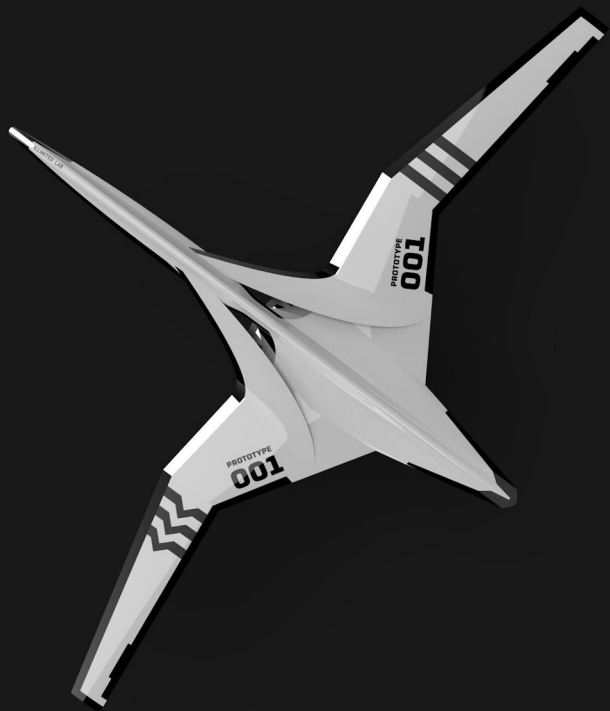

Buckling of Column

Illimited Lab transformer drone concept

DARPA Manta Ray UAV

Example start up pitch

Startup: Run for Your Life!

Description: Need motivation to keep up the pace while running? Run for Your Life! Is here to help. Select from a list of fears: clowns, your ex, Cal students, etc. and this app will create a route uniquely tailored to terrify you. For a fee you can be chased by an actual convict.

Example: Fear is a remarkable thing. The fear of missing out can make you go out and do something you initially lacked the energy to do. The fear of missing an important work deadline can be more effective than taking Adderall. Imagine what fear can do when it comes to your cardiovascular health. Cardiovascular disease is the leading cause of death in the US, accounting for approximate one in every five deaths nationwide. Well, if you have ever lacked motivation to go out for a run and keep that heart rate up, then Run For Your Life is all you need. Just download the Run For Your Life app right before you start your run, and within 5 minutes, we will release your greatest fear on you. You can choose from our list of fears such as clowns, axe murderers, and a werewolf, and with a premium account, we can customize the fear experience just for you and even send in an actual convict to chase you. I am Karen, a Co-Founder of Run For Your Life, and I have over 10 years of experience in procrastinating and pulling all-nighters for work deadlines, so I personally understand what our customers are looking for. My other co-founder Penny Wise, has over 40 years of clowning experience scaring young children and adults and Penny has several feature-length films made about her career. Our CTO Fenrir Greyback has over 30 years of experience as a werewolf at the haunted mansion ride at Universal Studios and has a PhD degree in costume design. Together, we are committed to making Run For Your Life solve the country's cardiovascular health crisis one fright at a time.

Activity: Write a pitch (5 mins), other person identifies the RISE elements (2 mins)

Startup: Settl

Description: Look, at this point, this is the best you're gonna get. Settl is like Tinder, except that it matches you with everyone in the app. Try to swipe left and it won't let you. If you don't immediately start chatting with your match, Settl will turn on a bot to chat for you while finding an available time in your calendar to schedule your date.

Startup: Fightr

Description: Ever just feel like punching somebody, but there's nobody there to punch? Thankfully, now you have Fightr, a mobile-based app that uses geo-location software, you can find somebody near you who is just looking for a fight! View photos of potential fightrs, and if you both swipe right, you'll be matched up for the brawl you were always wishing for!
